Foreword

NO matter what care or skill is exerted in manufacturing the commodities illustrated in this catalog, nor the pains taken in selecting the material from which to make them, our greatest endeavors to produce thoroughly dependable merchandise are wasted unless we can give our customers something more than good quality products at attractive prices.

With every order, large or small, we feel that each and every customer is entitled to prompt service and deliveries, courteous attention and helpful co-operation in the selecting of appliances that will be the most practical in every application.

Therefore, we urge you to communicate with us, no matter what your requirements may be, whether listed in this catalog or not.

We aim to give you the best service possible.

IRONCRAFT SETS

No. 2055	Complete Sets, ½-inch Square Tube.....	Each Set
	Brackets 1 inch, 2 inch or 3 inch Projection	

No. 2096	Complete Sets, ½ inch square tube.....	Each Set
	Brackets 2¼ inch Projection	

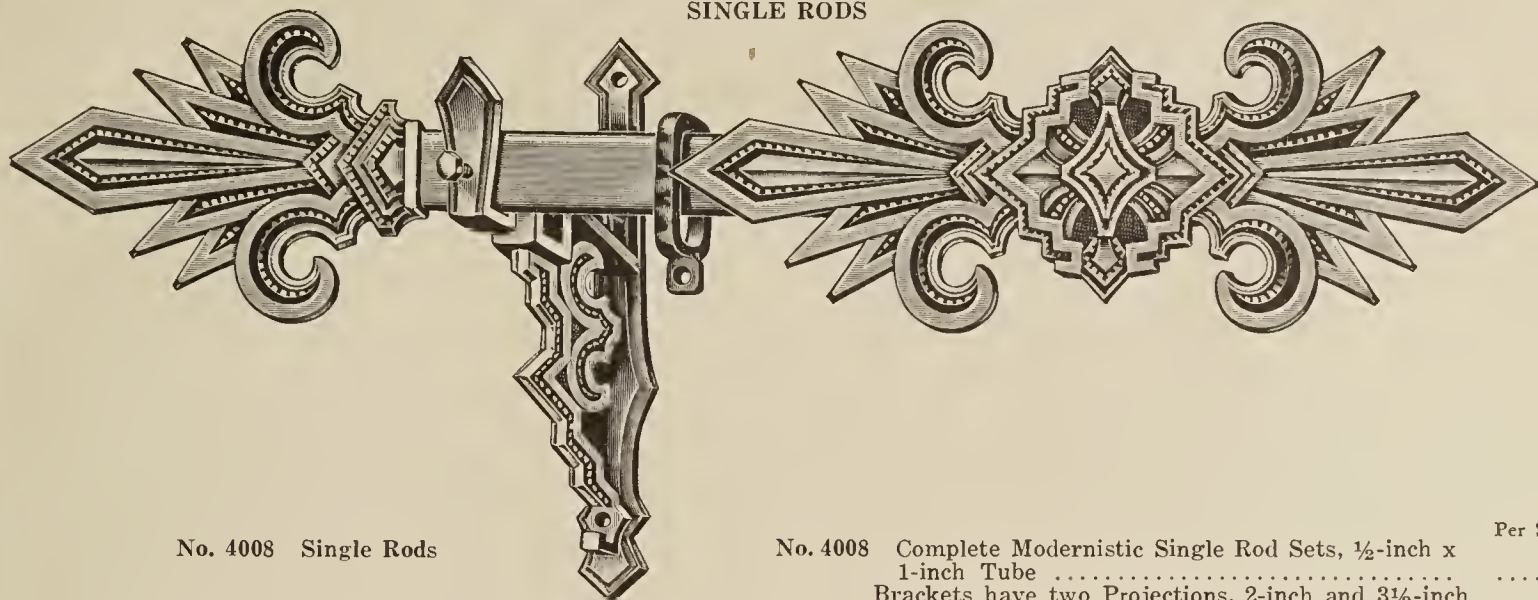

No. 2099	Complete Sets, 1 inch square tube.....	Each Set
No. 2099½	Complete Sets, ¾ inch twist tube.....	
	Brackets 3 inch Projection	

Sets shown above consist of 1 pair Ends, 1 Center, 1 pair Brackets, 10 Cast Rings and 4 feet of Tubing. (Tubing in other lengths to order. Any of the above units can be had separately)

State Finish selected from Page 11

MODERNISTIC CURTAIN FIXTURES

SINGLE RODS

No. 4008 Single Rods

No. 4008 Complete Modernistic Single Rod Sets, $\frac{1}{2}$ -inch x 1-inch Tube

Per Set

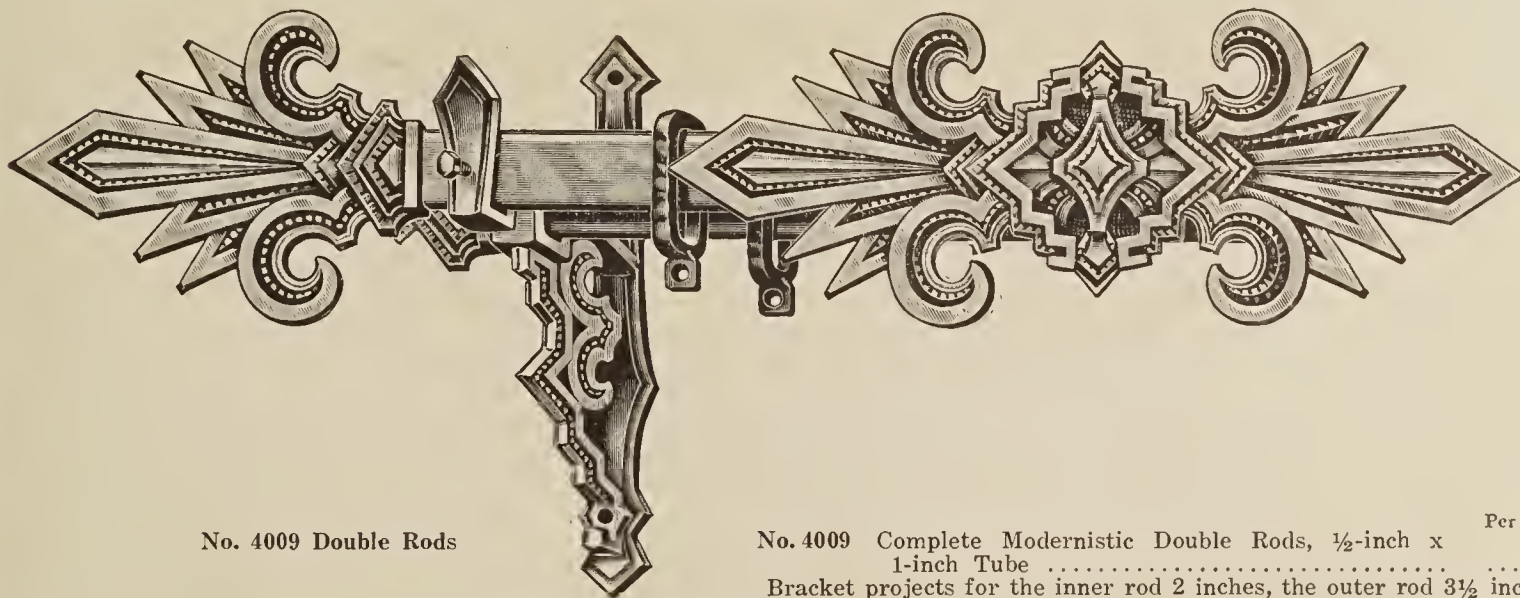

Brackets have two Projections, 2-inch and $3\frac{1}{2}$ -inch

Set consists of 1 Pair Ends, 1 Pair Brackets, 1 Center, 10 Cast Rings and 4 feet of Tubing. (Tubing in other lengths to order)

All Units can be had separately

Ends $5\frac{3}{4}$ inches long, $4\frac{3}{4}$ inches wide. Brackets 8 inches long. Centers $12\frac{1}{2}$ inches long, $4\frac{3}{8}$ inches wide.

DOUBLE RODS

No. 4009 Double Rods

No. 4009 Complete Modernistic Double Rods, $\frac{1}{2}$ -inch x 1-inch Tube

Per Set

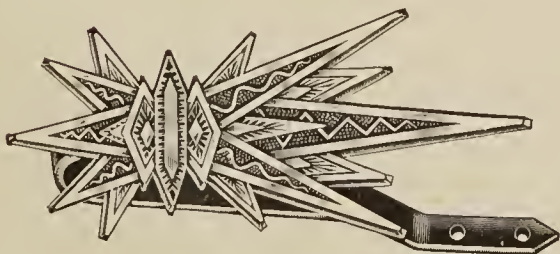

Bracket projects for the inner rod 2 inches, the outer rod $3\frac{1}{2}$ inches to order)

Set consists of 1 Pair Ends, 1 Pair Inner Rod Tip-Ends, 1 Pair Brackets, 20 Cast Rings and 2 Tubes 4 feet long. (Tubing in other lengths to order)

All Units can be had separately

Ends $5\frac{3}{4}$ inches long, $4\frac{3}{4}$ inches wide. Brackets 8 inches long. Centers $12\frac{1}{2}$ inches long, $4\frac{3}{8}$ inches wide.

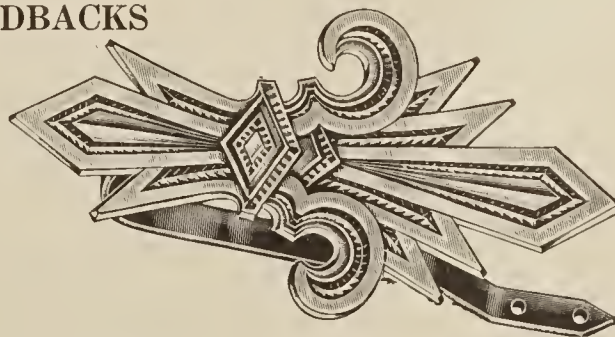

MODERNISTIC HOLDBACKS

No. 13006 $\frac{1}{2}$

No. 13006 $\frac{1}{2}$ Holdbacks 8 inches long. Projects $2\frac{1}{2}$ inches

Hotel Astor Installation

MONARCH STAGE CURTAIN TRACK EQUIPMENT

In the new Hotel Astor Roof Ballroom is a most interesting installation of Monarch Stage Curtain Traversing Track whereby this beautiful, long ballroom can be divided into smaller rooms by the use of heavy curtains hung from four Monarch Stage Tracks mounted on each of the four beams running across the room. A visit to the top floor of the Hotel Astor will well repay the time so spent by any decorator or hotel man.

This is but one illustration of the uses to which this Monarch Stage Track Equipment can be put. It has been successfully used in Motion Picture Studios, Broadcasting Studios, School Auditorium Windows and Stages, Churches, Hotels, Club Houses, Banks and many other places where extra high ceilings and windows are encountered.

The Track is made of extra heavy steel of original design. The double beading or ribs on both sides of the runways create enormous strength, together with straight alignment assurance. Both these features are found only in this improved Monarch Track.

The Rollers and Body of Carriers are made of Hard Fiber, a well known material to muffle sound as much as possible. This Hard Fiber is not affected by oils, heat or moisture and improves, rather than deteriorates, with age.

The large variety of fittings illustrated on the following pages are readily understandable and are designed to meet every possible installation requirement.

THE MONARCH STAGE CURTAIN TRAVERSING TRACK AND FITTINGS

Full Size Cuts

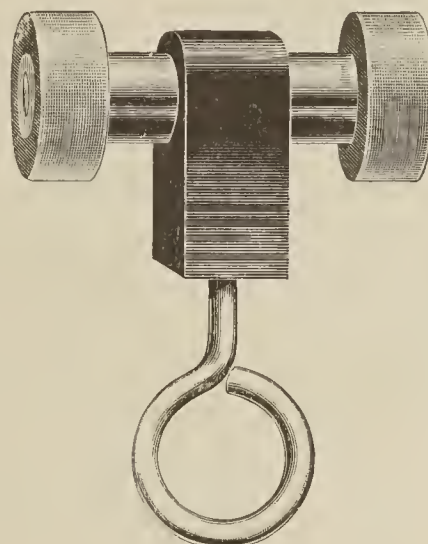

"MONARCH" TRACK

Made in 12, 14, 16, 18 and 20 Foot Lengths

	Per Foot

No. 2701 Satino, all lengths	
No. 2702 Black, all lengths.....	
No. 2703 Natural Steel, all lengths.....	

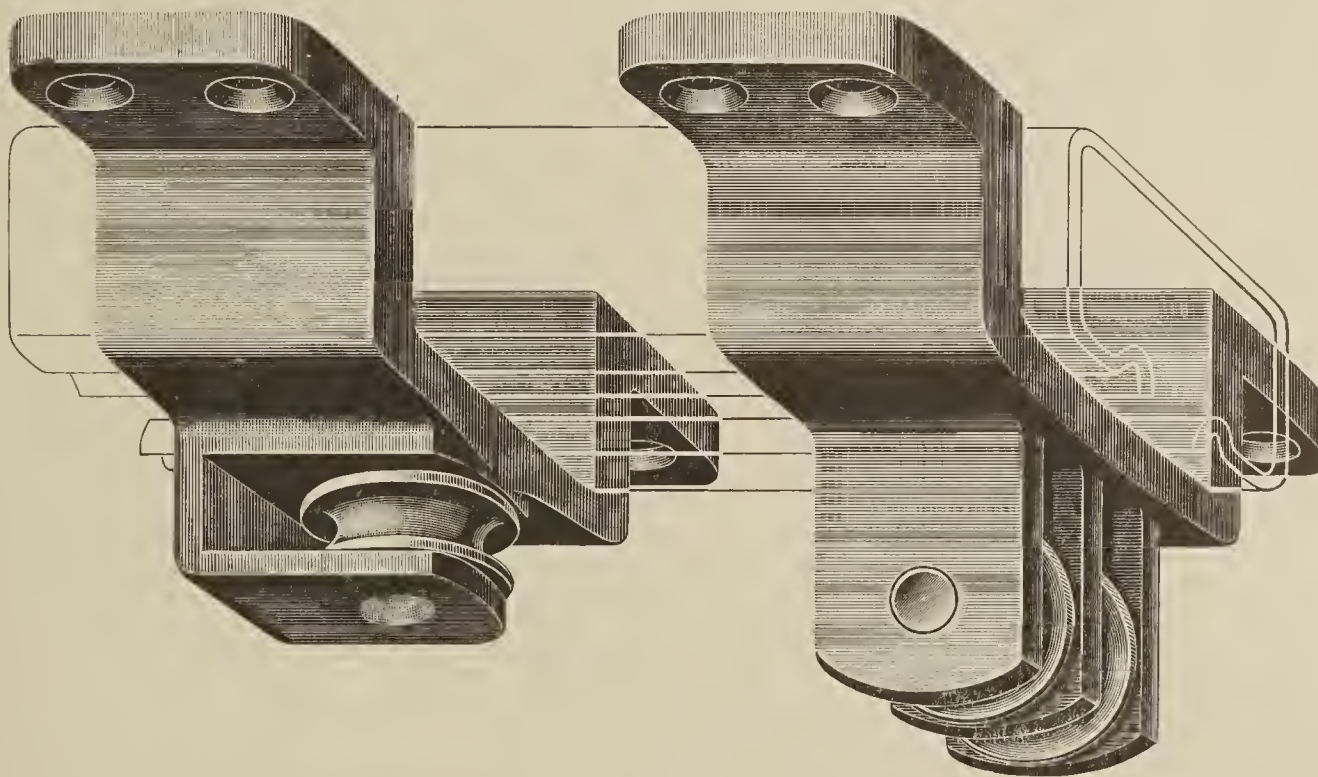

The TRACK is made of extra heavy STEEL of original design. The double beads or ribs on both sides of the runways create enormous strength, together with straight alignment assurance, both features very important, and found only in this improved TRACK.

No. 2711

No. 2711 "Monarch" Roller Carriers..... Per Doz

The ROLLERS and BODY of CARRIERS are made of Hard Fibre, a well-known material to muffle sound as much as possible when CARRIERS come in contact or while drawing the curtains.

No. 2712

No. 2712 "Monarch" Pulley Brackets. Furnished in Satino or Black..... Per Pair

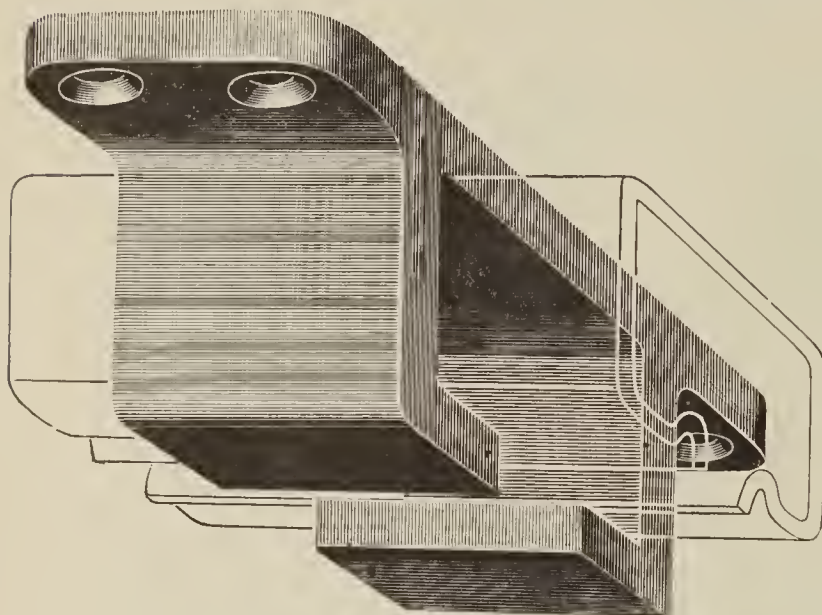

TRAVERSE PULLEY BRACKETS, SUPPORTS and TRACK END CAPS are all of massive construction, and together with the TRACK and CARRIER as shown in illustrations are readily understandable, to enable the average mechanic to apply in a most satisfactory and practical manner, without any complications or special instructions.

Hand or cord-drawn methods are thus easily accomplished.

WEIGHT BRAID

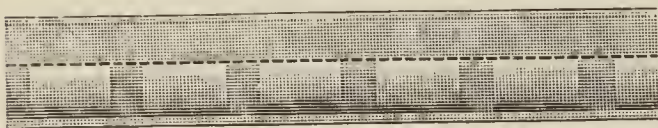

This braid is used largely by the drapery trade to form a weight in the lower ends of curtains and portiers as its flexibility makes it shape itself to all natural folds of the material and puts that finishing touch to the work

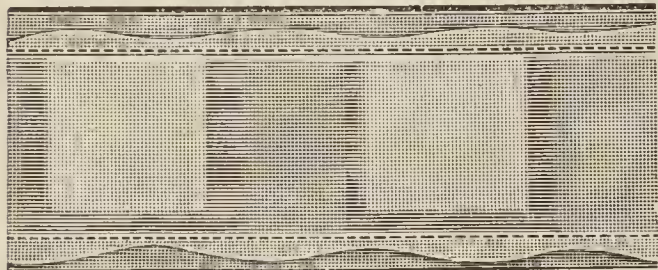

No. S $\frac{3}{16}$ -inch diameter. White Per Gro. Yards
No. S $\frac{3}{16}$ -inch diameter. Ecru Per Gro. Yards
